

Daily Rewards

Daily rewards are various rewards that people can pick up on a daily basis. Players can pick up their rewards by visiting NPC **Elise**, located downstairs in the depot.

The rewards you can take vary according to your position on the Reward Lane, which changes every time you take a new reward. Not taking your daily reward for one or more days does not affect your Reward Lane position. Picking up your reward on a daily basis increases the counter of your reward streak. As your streak grows, you gain access to special bonuses in addition to your rewards. If you miss a day, your reward streak will reset and you will lose your current bonuses
