

Healer Presets

Healer Presets

These Healer settings can be copied and Imported by pressing the "I" button on the Healer and pasting the settings based on your vocation.

Note: These are not the best possible or most optimal healer settings for the vocations listed. They are intended to meet two basic criteria so that they can be easily run by players who may not be the most familiar with Cyntara's Healer.

1. The healer settings are **based around level 600**. It prioritizes safety over efficiency at lower levels and becomes less safe as you level up.
2. The healer settings prioritize safety over efficiency at lower levels and will begin to prioritize efficiency at higher levels.

Sorcerer & Druid
