

Treasure Hoarders

Treasure Hoarders are little mischievous creatures that really like their belongings. You may find them spawned in random areas. Once you find a Treasure Hoarder and engage one you will have 60 seconds to deal as much damage as possible. Every now and then when the Treasure Hoarder receives damage, you will receive some loot. He may also drop some extra along the way as he flees. Additionally, if you manage to kill the Treasure Hoarder before it despawns, you will receive extra loot.
