Piece Of A Sun Catcher Usable

It appears that this piece can be connected to three other pieces and a gem when in your inventory.
It weighs 5.00 oz.
[Item ID: 31724]

The core is only dropped by the last boss **"Vegnagun"**

In this boss you must be very attentive because every so often he does a **self-destruct** count that takes **at least 3 seconds**. Before his countdown reaches 0 you must be hidden behind one of the pillars within his room. His self destruct attack **can oneshot any player** no matter how high level he is.

The knights as well as any player who has entered the boss **must only use ranged attacks**. In the case of the knights **Whirlwind Throw** (exori hur) given that if they approach they die by oneshot of their physical attack.

This Boss it´s hard if you no have patience and are atent. It always stays at 1% of its life. So keep attacking with the strategies listed above until you are teleported out of your room..

Have this charm in loot

found or type unknown

Crystal Of Power

Weight: 8.0 oz

Critical Chance: +0.8%

Critical Damage: +8%

Hit 'em where it hurts.

Like other notable items like him head  used in **Maraton Man Chan Quest**, Power Tabs and **The Core of Sun Catcher**.

With the four pieces and the core of the Sun Catcher in your backpack you can craft the charm by clicking on any of the pieces...

found or type unknown
